

Hi everyone,

You are kindly invited to complete a brief online questionnaire to help create online **interactive trails** and an ArcGIS StoryMap connecting points of interest in the local area.

The **Loughborough Observatory for the Visualisation of the Natural and Built Environment (LOVE) Project** is an Impact Hub funded project that enables participants to locate their individual lives in space and place through a digital tool for the Loughborough community.

This is an opportunity for the community to explore their relationship with **local history** and the **natural environment**. The online map will include community stories/quotes about **points of interest**:

- Natural / environment
- Arts and sculpture
- Culture and history

Your opinion is important!

Please find the online form via the QR code or link below. Feel free to share this invitation with anyone who might be interested in the project.

<https://forms.office.com/e/UjcbLX0x3X>

More information here: <https://www.charnwoodforest.org/research/love>

Please let me know if you have any inquiries.

Best wishes,

Dr Paulina Jara-Osorio on behalf of the LOVE project team
